Hi everyone, I am in a position to submit this project for demolition and building permits but need 1 more Building Department of you.

Because I am technically applying for 3 separate building permits (2 demolition permits and 1 construction permit) on 2 different addresses the building department wanted some clarity on your letters/permits.

Elizabeth can you write an email stating the one HCA permit is granted for both the construction on 688 as well as the demolition of the existing dwelling and accessory structure on 690? I know your permit says that already but if you could explain that a separate permit would not be needed for the total scope of work or for each part?

Dmitry, more or less the same thing, the NEC exempts the demolitions on 690 and exempts the addition to the emails always follow my address of 690 and the building department would like each action associated with the appropriate address.

And Sarah we now require the ESA site plan exemption memos for similarly the demos on 690 and the proposed addition to 688 which you verbally discussed with the homeowners Erv and Sandy some time ago.

Thanks, any questions let me know.
